

VSMS Request for Extension — Eligible TIN List

Medium Segment Taxpayers

Notice and Disclosure

This list is published by the Department of Customs and Inland Revenue (DCIR) under the Vanuatu Sales Monitoring System (VSMS) programme. It identifies the Tax Identification Numbers (TINs) of Medium Segment taxpayers who are eligible to apply for a VSMS compliance-deadline extension.

How to use this list: TINs are grouped into numeric range bands (e.g. 100000 – 199999) and listed in ascending order within each band. Locate your six-digit TIN within the band that covers it. To protect taxpayer privacy, business names are not published; each business is identified by TIN only.

Eligibility does not guarantee approval: Inclusion on this list confirms only that a taxpayer is entitled to *apply*. All extension requests are assessed individually by the VSMS Technical Team, and approval is not automatic.

If your TIN is not listed but you believe your business should be eligible, or if you consider a listing to be in error, contact the VSMS Technical Team at vsms_extend@vanuatu.gov.vu before the application window closes.

This list is drawn from DCIR records and is current as at **16 September 2026**. Total eligible TINs: **533**.

TIN Range 100000 – 199999					141 TINs
